part, the dirt trapping part being separable from the drive part, means that restrict the axial mobility of the dirt trapping part relative to the drive part and which are one of ineffective and detachable when the cover is removed, wherein the drive part extends from a bottom towards a top into the dirt trapping part or entirely through it, the drive part comprises all of the parts necessary for a rotatable bearing of the rotor, and the drive part is securely positioned against axial removal with the cover in an open position.

8. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
